QUARTERLY ACTIVITIES REPORT to September 30, 2016

REVIEW of OPERATIONS GUNNEDAH BASIN COALBED METHANE PROJECT PETROLEUM EXPLORATION LICENCES 1 AND 12, NSW (GUNNEDAH BASIN)

(These tenements are held by wholly owned subsidiary, Australian Coalbed Methane Pty Ltd (ACM) and are subject to a Joint Venture (JV) with Santos QNT Pty Ltd (Santos), as previously advised. Santos holds a 65% interest in the tenements and is the project Operator.)

Field operations included routine care and maintenance of existing wells and access tracks. Additional proactive safety work included pressure testing of the Georges Island wells and Leak Detection and Repair inspections of Georges Island and Kahlua wells in PEL1 and Longlea well in PEL12. No leaks were detected at any of the sites.

In August a renewal application for PEL12 together with supporting documentation was lodged with the NSW Government. As with the renewal application for PEL1, renewal of this licence is not expected until government administrative procedures are in place to accommodate changes in NSW legislation.

Santos continues with community consultation including meetings, site tours and manning of an information stand at the annual AgQuip agricultural field day held in Gunnedah.
